About Dr. Pol

With over 50 years in veterinary medicine, Dr. Pol is more than just a television star or product line. In fact, the brand story goes back to 1954 when 12-year old Jan Pol helped deliver a litter of piglets on his family's dairy farm in the Netherlands. From that day on, Jan's singular focus and passion has been to care for animals. After graduating from Utrecht University as a veterinarian, Dr. Pol immigrated to the United States with his wife, Diane. After ten years of practice, he moved to Weidman, Michigan and founded Pol Veterinary Services. With a down-to-

earth, practical approach to veterinary medicine, Dr. Pol grew his practice and has devoted his life to caring for the pets, livestock, and animals of farmers and pet owners. Dr. Pol continues his work today, caring for animals, advocating for affordable pet care, and bringing products to consumers designed to support overall health at affordable prices- because Dr. Pol's favorite animal is a healthy animal. Watch *The Incredible Dr. Pol* in 180 countries around the world on National Geographic, Disney+ and Hulu.
